

Lab Services & Outside Billing

Laboratory services may be provided by outside reference labs, as The Portland Clinic laboratory is not licensed to do all the tests your provider may order.

You will be billed for these services by the reference lab performing your tests.

These outside reference labs include Athena labs, Cascade Cytology and Pathology labs, CTA labs, Kaiser Permanente, Legacy Health labs, Providence lab, Quest Diagnostics, and Univ. of Michigan.

If you have billing questions related to charges from these reference labs, please refer to your Insurance Explanation of Benefits (EOB) or call the numbers listed on the billing statement.

If you need additional help regarding your bill, contact our Patient Accounts Department at 503-221-2189.
